Laura,

It was a pleasure meeting you yesterday to discuss ways that SAP and Ariba may be able to help you and your GSA colleagues address some of the challenges you have with driving your GSA Advantage program as well as the potential impending NDAA marketplace legislation.

As requested, attached is the presentation that I shared during the meeting. I am also including below some specific links to customer testimonials and a brief demo of the Spot Buy "marketplace of marketplaces" solution that we discussed. I only have your email from the meeting maker, so please pass along both my gratitude and well wishes to your extended team as well as the contents of this email.

I hope you have a wonderful Thanksgiving holiday. Please let us know if there is any additional assistance we can provide as you continue your initial market research in these areas.

Hi Laura,

Was great to connect with you last week at ELC, and really encouraged to hear that you are interested in learning more about SAP Ariba. I have had a chance to talk with the team internally and, finally now back in the office, would like to ask when you might have time for an initial discussion on our marketplace offering? Not sure if you have seen our published content on SAP Ariba, <https://www.sap.com/products/e-procurement/strategic-sourcing.html> but wanted to provide in case you haven't. Also including links to white papers from the site; <https://www.sap.com/documents/2017/04/bac8e9a4-b27c-0010-82c7-eda71af511fa.html> and <https://www.sap.com/documents/2017/04/bac8e9a4-b27c-0010-82c7-eda71af511fa.html>. We very much look forward to hearing more about GSA objectives and any detail on the requirements you are developing.

Thanks again for the time at ELC, and hope to speak with you soon.

Dear Laura:

Thank you again for connecting with us in late April to discuss GSA's intention to evaluate industry available e-Procurement / e-Commerce online marketplace systems. Per our conversation, we would like to schedule a demonstration of our Ariba SaaS offering.

The demonstration could serve as a great way to review the User Experience for an online marketplace system and how Ariba could manage the marketplace experience for GSA. We can of course also review other key topics like how we manage suppliers in our network, handling credit card orders, and supply chain security which is becoming more and more important for our commercial and government customers.

Can you share some dates that might work for your team in the coming weeks? Once we select a date, I will set up a call in advance of the briefing to discuss the proposed agenda with you to ensure the time is most beneficial for GSA.

Thank you,

(b) (6)

Hi (b) (6)

Per our discussion a few weeks ago, I'm sharing the Federal Register notice with the information on how to join the public meeting on January 9 to discuss commercial platforms, NDAA Section 846. There are instructions on how to register, offer written comments, and indicate that you would like to be on a panel.

<https://www.federalregister.gov/documents/2017/12/15/2017-26964/procurement-through-commercial-e-commerce-portals>

Laura,

Please accept my sincere appreciation for your participation on the e-commerce panel at the Coalition's fall conference. According to the Coalition, the conference attendees unequivocally found it to be very substantive and relevant to their understanding of the marketplace. That result could not have been achieved without your preparation and clear presentation.

As a side note, your presentation revealed the complexity of tasks that have been laid at your feet. "Threading the needle" to account for policy drivers and substantive requirements is a challenging endeavor, and GSA, indeed, the agencies, are very fortunate to have you leading it. If ever I can be of assistance to you, please don't hesitate to let me know.

Thanks, again, for the generosity of your time and talent on the panel.

All the best,

(b) (6)

All,

Thank you for agreeing to participate in the panel, "The Future of e-Commerce: Section 846, GSA Advantage, and DOD's FedMall," that will take place during the upcoming Coalition for Government Procurement Fall Conference. The purpose of this email is set-up a prep call for the panel. Please let me know if this time works for you.

As a reminder, the panel will run from 11:15 AM – 12:15 PM on November 8th at the Fairview Park Marriott, [3111 Fairview Park Drive, Falls Church, VA 22042](#). For the purposes of show flow, I propose the following for the panel:

- | **Introduction (5-ish minutes)** – Brief explanation of the panel topic/theme and introduction of the panel members. Please, if you have bios you would prefer used, forward them.
- | **Panel Members (15 minutes each)** – The characteristics of e-commerce solutions in government; vendor perspectives; agency perspectives; and law and policy perspectives. The focus is on the characteristics, experiences, and policy issues that should be considered, especially in light of current events and legislative initiatives.
- | **Questions (10 minutes)** – It would be very helpful to have the top 3-5 questions each of you would like asked to you in order to drive home a particular point of your part of the discussion.

I hope you find the foregoing acceptable, and I look forward speaking with all of you on the call. In the meantime, please send along your bios and questions so they can be incorporated into the planned presentation.

Thank you for committing to participate in this panel.

MD5: 96a748b04e0ed2d9ecaad2d30675c0bf

All,

Thanks to those who could make the call. Set forth below is the plan for our panel.

- | The timing for show flow generally works. Some speakers may vary their time in order to allow time for exchanges in the question and answer process.
- | Tom will provide a quick background on 846, an overview of some of the issues, and an introduction of the speakers.
- | Matthew and Laura (in that order) will lead off.
 - | First, Matthew will provide a policy overview, *e.g.*:
 - | Micropurchases/thresholds
 - | The implications of multiple channels
 - | Transaction-based considerations
 - | Product suitability
 - | Laura will follow Matthew and will discuss e-commerce and the progress over the past year
 - | Industry meetings
 - | Report release
 - | Where things stand
 - | What is on the horizon
 - | LeAntha will follow Matthew and Laura and discuss FedMall
 - | Engagement with industry
 - | Data standards
 - | How DoD operates in this context
 - | This focus on cybersecurity and risks
 - | *N.B.* There was discussion about the ability to control cyber risks associated with certain products, and it was agreed that discussion would be a positive part of the panel presentation.
- | Questions
 - | Before the event, panelists will send Tom questions they would like asked
 - | Tom will send proposed questions to panelists

I think I've captured our discussion and plan correctly. Please let me know if I'm in error or if I missed anything.

Again, thank you for agreeing to participate in this panel. It will be great!

Subject: Re: Panel Questions

Hi (b) (6)

Thanks for sending the questions over. I do have a few questions to contribute to the panel discussion.

1. Given the heavy amount of market research being done as part of Phase II of the Commercial Platforms initiative, what are some of the key takeaways from industry and agencies?
2. What do you see as far as involvement from industry and agencies as you wrap up Phase II and head into Phase III?
3. We've been hearing quite a bit about starting small with a proof of concept, can you talk a little more about this?
4. What are some of the value propositions / objectives you want to test through your proof of concept?
5. What are the upcoming milestones you're targeting?

Thanks and I look forward to seeing you on Thursday.

All,

As promised, attached are a few panel questions for the Fall Conference next week. As indicated, I'll prime the pump with question one, and thereafter, proceed as needed (based on the sound of crickets in the audience ☺). Again, please send me any questions you would like me to ask.

I look forward to seeing you next week. Have a nice weekend!

Tom

Laura,

It was a pleasure meeting you yesterday to discuss ways that SAP and Ariba may be able to help you and your GSA colleagues address some of the challenges you have with driving your GSA Advantage program as well as the potential impending NDAA marketplace legislation.

As requested, attached is the presentation that I shared during the meeting. I am also including below some specific links to customer testimonials and a brief demo of the Spot Buy "marketplace of marketplaces" solution that we discussed. I only have your email from the meeting maker, so please pass along both my gratitude and well wishes to your extended team as well as the contents of this email.

I hope you have a wonderful Thanksgiving holiday. Please let us know if there is any additional assistance we can provide as you continue your initial market research in these areas.

H (b) (6)

Per our discussion a few weeks ago, I'm sharing the Federal Register notice with the information on how to join the public meeting on January 9 to discuss commercial platforms, NDA Section 846. There are instructions on how to register, offer written comments, and indicate that you would like to be on a panel.

<https://www.federalregister.gov/documents/2017/12/15/2017-26964/procurement-through-commercial-e-commerce-portals>

Hi Mark,

Your external workforce plays an important role in the overall success of your business and many companies like General Services Administration, US are seeking better ways to manage employees such as Contractors, SOW labor, 1099 and other contingent workers.

SAP Fieldglass Flex was developed as a cost effective solution to help large and midsized organizations manage processes related to sourcing, engaging, managing and paying contingent workers all while enforcing compliance and mitigating risk.

The best part about this solution is that it's 90% configured out of the box and most organizations are up and running in less than a day, and yielding average savings between 8-12% within the first year!

Can we get some time on the calendar to discuss how Fieldglass would be applicable at General Services Administration, US and what's important to your particular success? If not, would you mind pointing me in the right direction? I thought you would be the best person to speak with given your role.

Warm Regards,
Seth
